RUNNING TRADES OF CANADIAN RAILWAYS TO VOTE ON STRIKE

Union Leaders Decide to Submit Wage Reduction Issue to Members—Result of Poll Not Expected for Month or Six Weeks—Similar Action Never Taken Before

MONTREAL, Aug. 4 (CP).—Immediate steps will be taken to poll a strike vote of the running trades employees on Canadian railways, it was announced tonight by the general conference committee of the engineers, firemen, conductors, trainmen and railroad telegraphers.

TO VOTE AT ONCE

Confronted with the refusal of the Canadian National and Canadian Pacific Railways to withdraw from their stand insisting on a further 10 per cent wage cut, the committee today decided to prepare a strike ballot and distribute it to the members of their respective unions at once.

The latest development brings the Canadian railway situation to a position, which a few months ago was regarded as impossible. Last June, when the union chiefs were negotiating with the companies, the Minister of Railways and the Minister of Labor, the prospect of a strike was scarcely considered.

NEVER TAKEN BEFORE

Decision to take a strike vote commits the union heads to a course of action never before taken by the running trades. As a whole, union leaders tonight expressed the opinion there would be a strike unless the attitude of the railways changed. It will take a month or six weeks, however, for the ballots to reach every man in the various services and for the results to be tabulated.

No comment could be obtained from officials of the railway companies tonight on the latest development in the wage dispute.

JOSEPH EMERY PASSES AWAY

Well-Known Druggist Practiced Profession Here Forty-Two Years

Joseph H. Emery, aged seventy-three years, well known not only in Victoria, but throughout British Columbia, for his contribution to the advancement of pharmaceutical work, passed away at the family residence, 1319 Fernwood Road, yesterday. His death came after four weeks' illness brought on by a stroke.

Born in Sydenham, London, December 6, 1860, shortly after the death of his father, Mr. Emery was educated in London and apprenticed at the age of twelve years to Dr. Erskine, a Scottish physician and apothecary, practicing in London.

MOVED TO BRAMPTON

He came to Canada at the age of twenty-one with his mother, who wished to join her daughter, Mrs. Francis, who was residing in Brampton, Ontario, at that time. The deceased entered the druggist business there and also engaged in journalism.

Coming to Victoria forty-two years ago, he almost immediately joined the firm of Thomas Shotbolt, Ltd., and eventually became proprietor and partner in the firm. For many years he was on the board of the B.C. Pharmaceutical Board, and was secretary from 1917 until 1924.

ESTABLISHED RECORDER

Mr. Emery established The British Columbia Pharmaceutical Recorder, now published in Vancouver. He first published it as a private journal, but later relinquished ownership of his own publication so that the work might be carried on as an official organ of the druggists' association.

FIVE INJURED IN ACCIDENTS

Three Collisions Reported Yesterday—Betty Clemon Seriously Hurt

Five persons were injured in three different accidents yesterday. Those hurt are: Betty Clemon, serious head injuries; Edward Wilkins, Manitoba Hotel, badly cut arms; Mrs. F. Williams, of Colquitz, cuts and abrasions; her infant child, cuts and abrasions; and W. J. Bryson, of the Esquimalt Naval Barracks, badly cut jaw.

HEAD-ON CRASH

Mrs. Williams and her child were injured in a head-on collision on Wilkes Road, near Burnside Road. Mr. Williams was driving his machine north on Wilkes Road, and Mrs. B. Pringle, of Colquitz, was driving her car south on Wilkes Road. According to Spanish police, Mrs. Pringle came out from behind a hay rack to collide head-on with Mr. Williams.

Mrs. Williams and her child, although suffering cuts and bruises, did not have to be taken to the hospital. First aid was rendered by Constable Eric Elwell, after which they were taken home.

W. J. Bryson was injured when his car, proceeding east on Pandora Avenue and turning to go north on Quadra, collided with another car driven west on Pandora Avenue by H. Eastwood, of Cedar Hill Road. The police ambulance was sent to the scene, and after Mr. Bryson was given first aid, he was taken to the Jubilee Hospital to receive medical attention for a long, deep gash under the right jaw.

Teacher Prevents Firing of School

KAMSAK, Sask., Aug. 4 (CP).—Mounted police officers are today scouring the territory south of Kamsack and Verigin in search of two men, who attempted to set fire to Lausanne School, near here, late Thursday night.

The would-be fire setters were foiled in their attempt by Bill Fedorko, teacher at the school, who was awakened by his dog. After an exchange of shots he frightened away the midnight prowlers.

Flyers Poised For Attempt At New Mark

Flash-Rossi and Codas hopped off at 4:41 a.m., E.S.T. BROOKLYN, N.Y., Aug. 4 (AP).—Léon Maurice Rossi and Paul Codas, French aviators, who have been waiting nearly two months to start a flight in quest of a new distance record, announced early today they would take off at sunrise.

Their course will take them over Newfoundland but they have no definite destination on the other side of the Atlantic Ocean. They plan to fly as long as their fuel holds out.

WHISKY PRICES SOAR IN U.S.

Anticipation of Change in Law Brings Enormously Increased Demand

(Copyright, 1933, by the North American Newspaper Alliance, Inc.) NEW YORK, August 4.—Old and new liquor dealers and speculators, anticipating early repeal, have increased the demand for spirits at Government warehouses more than 200 per cent the last few weeks. This condition, rather than liberalized medicinal rules, it was believed, has caused whisky prices to soar.

American Diplomat Says Hitler Policies Working for General or Civil Hostilities

NEW YORK, Aug. 4 (AP).—A statement that "all Europe is ready for war" was made by Henry Morgenthau, Sr., today, as the diplomat and Democratic councillor returned from abroad.

A delegate to the wheat conference in Geneva and later an expert with the Americans in London at the economic parity, the former ambassador to Turkey said that war was brewing in Germany.

Bennett Returns From Moors to Give Lie to Death Report

HARROGATE, England, Aug. 4 (CP).—Returning from an afternoon spent in the fresh breezes of the Yorkshire moorlands, Prime Minister R. B. Bennett tonight laughed when told of a rumor that he had "dropped dead."

Looking very fit and much younger than his sixty-three years, the Canadian Prime Minister and Hon. G. Howard Ferguson, Canadian High Commissioner in London, each reminded the Canadian Press of Mark Twain's famous saying—"The report is greatly exaggerated."

They were informed the rumor, apparently originating in Montreal, had circulated widely in Canada today. Mr. Ferguson was first to dispose of it, and when Mr. Bennett was seen he was told the rumor was that he was ill.

"Oh, good heavens, it's worse than that," said Mr. Bennett. "The story as I have it is that I'm dead."

Portland Will Be Canadian Legion Convention City

Delegates Endorse Invitation Enthusiastically—Lieut.-Col. W. S. Buell Chosen as New President of Provincial Command—Other Officers and Zone Representatives Selected

NEXT year's convention of the British Columbia Command of the Canadian Legion will be held in the city of Portland, Oregon, on June 11, 12 and 13. The decision, made by the delegates at the present Canadian Legion convention by an overwhelming vote, marks the first occasion in the history of the Legion that a convention has been held outside the boundaries of the Dominion of Canada.

The move was made during the afternoon session shortly after Lieut.-Colonel W. S. Buell, of Vancouver, had been elected to the office of president of the Provincial Command for the ensuing year.

Colonel Buell will be assisted in his executive duties by William McKinstry, of Vancouver, as first vice-president; H. A. Bryant, of Fernie, as second vice-president; and Guy Boyer, of the Gulf Islands, as third vice-president. Honorary treasurer for the coming year, on a unanimous vote, was William Matthews.

DATES SET FOR BY-ELECTIONS

Three Electoral Districts to Name Members of Parliament Oct. 23

OTTAWA, Aug. 4 (CP).—Writs were issued today for by-elections in three electoral districts, Mackenzie, Yamaska and Restigouche-Madawaska. Nomination day in the Saskatchewan seat of Mackenzie will be October 10, and in the other two on October 16.

The by-election in Mackenzie was caused through the resignation of Milton Campbell, the Progressive member, who was made a member of the new Tariff Board. The election in this riding may test the relative strength in the West of the C.P.F., which will be represented by the former Winnipeg judge, George St. Louis Stubbs.

The Quebec riding of Yamaska was declared vacant through court action. Aime Boucher, Liberal, won the contestation case dragged through the courts until finally the Supreme Court of Canada declared Boucher had forfeited his seat by improper election practices.

Employment in B.C. Lightens Relief Burden

DECLINE by 21,500 of the number of persons on relief in British Columbia between March and June of this year is recorded in official figures released yesterday by the Government. In the same period numbers of men in camps under Dominion care lessened by 2,600. July figures, it was said, would show additional improvement, when completed. Steady gain in the volume of employment was credited with a substantial part of the improvement.

SWIM IN HOT CRATER LAKE

Father Hubbard and Party Explore Largest of Aleutian Volcanoes

By FATHER BERNARD R. HUBBARD (Copyright, 1932, by the North American Newspaper Alliance, Inc.)

AKUTAN, Alaska, July 29.—We have just completed exploration of Akutan Volcano, probably the largest crater on the Aleutian Islands. It is larger than Katmai Crater and similar to Aniakchak.

Three men, Edgar Levin, George Peterson and George Getty, and three dogs, Magik, Katmai and Wolf, all packing their limit of equipment, went with me, and we established a camp on the side of the volcano.

A hundred-mile gale lashed us for forty-eight hours and forced us to take refuge in a stream bed under a waterfall. We made three descents into Akutan Crater, and took more than six thousand feet of motion picture film and three hundred still photographs.

The crater is about nine miles in circumference and is active in several spots. A lake occupies part of the crater floor, with ice on one side and warm water on the other. We enjoyed swimming by diving from the snow banks into hot water. Boiling water issues from a split in the crater rim and flows toward the Bering Sea. Levin was painfully scalded.

NOTHING DAMAGED

Magik, the blue-eyed dog hero of previous expeditions, fell into the lake with a thousand feet of film in his pack, but he swam out with nothing damaged.

This is my seventh consecutive year of Arctic exploration. We left Seattle May 10, and should be back by the end of August.

Since this dispatch was sent, Father Hubbard, known as the "glacier priest," has arrived at the Pass, Alaska, whence the party returns to Seattle.

CROWDED OFF ROAD AND INTO HOSPITAL

EDMONTON, Aug. 4 (CP).—Crowded off the road by a speeding "road hog," Joseph St. Hilaire, Los Angeles, was seriously injured when his car overturned one mile west of Mannville, Alta., Thursday.

He is in hospital with internal injuries. His wife escaped injury.

LOSS OF CLOTHES NO PROOF OF SUICIDE

WINDSOR, Ont., Aug. 4 (CP).—Isaac Fogel, broker, was awakened by police today, and told he was believed to have committed suicide as his pants and coat had been found on the Detroit River bank last night. He had vanished from his bedroom, and with it \$475 he had in his trouser pockets.

WAGES GOING UP

HAMILTON, Aug. 4 (CP).—Wages of all employees of the Union Drawn Steel Company will be increased 15 per cent, officials of the firm announced today. The increase will be effective from August 1.

Torrent of Human Bodies Pours Into Stalls of Maddened Cattle Through Crumpled Woodwork—Motor Race Spectators Crowd Back After Once Ordered Off by Police

Workers Below Escape When Warned by Ominous Noises

REGINA, Aug. 4 (CP).—Collapse of a barn roof at Regina exhibition grounds today brought injury to forty persons. Of the forty extricated from the crumpled woodwork, twenty-five are in hospital and the others, less seriously hurt, are suffering from bruises, cuts and minor injuries. Fifty men, women and children were on the roof when it collapsed.

Cattle in the barns plunged and reared as the human torrent fell into stalls. Several men working in the barn heard an ominous crackling of the roof supports and beat a hasty retreat just before it fell.

Seriously injured were: Frank Kaye, twelve, Regina, internal injuries; Marial Musgrove, eighteen, Regina, spinal injuries and right wrist broken; Dorothy Lavers, seventeen, Regina, severe shock.

Others, thirteen of whom were still in hospital tonight, were treated for injuries ranging from broken limbs to chest and spinal injuries. Police, only a few minutes before the accident, had cleared the roof, but the crowd climbed back again.

KNOCKED UNCONSCIOUS

Many persons were knocked unconscious as their heads met the roof supports. Others were buried beneath their fellow-victims, and still others were thrown among cattle in their stalls.

The injured included three persons from outside Saskatchewan: John Stephens, thirty-five, Tilley, Alta., C.P.R. farm employee, neck injuries; Alton McPhail, seventeen, Brandon, Man., right foot hurt; Donald Damette, twenty-eight, Regina, severe shock.

Wireless and Plane Save Life of Little Boy on Lonely Isle

Northland Airman Forced Down Twice in Arctic
Storm While Taking Doctor to Aid Stricken
Child on Kodiak Island

SEATTLE, Aug. 4 (AP).—A little boy's life was saved today by wireless messages that traveled 2,000 miles to send a seaplane, carrying a doctor, crashing through an Arctic storm to lonely Kodiak Island.

Amateur wireless advices from Alaska, today said Pilot Harry Blunt, one of the Northwest's most noted aviators, flew Dr. A. S. Walkoway, of Anchorage, 400 miles through a storm to Lazy Bay, Kodiak Island, where the five-year-old son of Henry Looft lay at the point of death with acute appendicitis.

Early Thursday morning Edward Stevens, Seattle amateur wireless operator, picked up the high pitched whine of the operator at Allak, more than 1,000 miles away, as he messaged for help for the child, saying there was no doctor available.

Stevens described the boy's symptoms to Dr. A. H. Seering, of Harborview Hospital, who diagnosed the case and advised the patient be hurried to a hospital, lest peritonitis develop.

"I can't reach Anchorage because of bad weather," shrieked the Allak wireless.

"Please message Anchorage for help," Stevens called the United States army Alaska telegraph, which uses wireless and cable, and the plea went to Anchorage.

FORCED DOWN TWICE

Weather was bad, and it was 400 miles from Anchorage to Allak, but Blunt took Dr. Walkoway and roared into the gale. Twice the seaplane was forced down before it crossed Cook Inlet, and Sherikof Strait, but they reached Lazy Bay late yesterday, and after treatment, the message came that the boy was believed safe, and would be taken to Anchorage Hospital in the seaplane.

D. B. Martyn Reports on
Return Here

Colonel D. B. Martyn, who represented the Grey Nuns of British Columbia and the Yukon, at the Shrine convention held in Atlantic City, has returned home from the East with the report that there appears to be a general trend toward recovery in the Eastern states.

"While conditions in the East are not as good as they are here, the situation is considerably better," he said, adding that this was the consensus of opinion among the many delegates attending the convention.

The homes for crippled children supported by the Shrine had been well maintained, and the finances had not been impaired by the depression, he said.

GANDHI SENTENCED TO YEAR IN PRISON

POONA, India, Aug. 4 (AP).—The Mahatma Mohandas K. Gandhi, free for just four minutes today, was again a prisoner in Yeroda Jail tonight under a new and more permanent status.

He was sentenced to one year of simple imprisonment because he declined to accept conditions under which he was released. These were that he refrain from political activities and remain in the Poona district.

RUNNING TRADES OF CANADIAN RAILWAYS TO VOTE ON STRIKE

below the wages prevailing in the United States.

STUDIED MERITS OF CASE

Following objections made by the unions, Hon. W. A. Gordon, Minister of Labor, appointed a board of conciliation which studied the merits of the case. The majority finding of the board supported the railway companies in their demand for a reduction. That left the unions the alternative of accepting this or walking out.

A similar dispute prevails between the shop employees, maintenance of way men and signal men of the railways, but in that case the matter has not yet reached the stage of the board of conciliation.

HOPES FOR SETTLEMENT OTTAWA, Aug. 4 (CP).—

Approached tonight on the statement from Montreal that a strike vote of the running trades of Canadian railways was to be taken, Hon. W. A. Gordon, Minister of Labor, stated:

"It would be very unfortunate if occasion were created where Government intervention might become necessary, even if it could be invoked, because action of that kind would do violence to the right which labor has always claimed and to the right to negotiate rates of pay and such matters. But it seems to me there must be some common ground upon which the railway managements, the railway employees now employed and junior men out of employment could come to some amicable conclusion."

PORTLAND TO BE CANADIAN LEGION CONVENTION CITY

Continued from Page 1

George Thain, commander of Portland Post No. 17, in thanking the delegates for selecting the City of Roses as their next meeting place, said: "While we have a beautiful city and can assure you that you will see a convention such as you have never seen before, there is another aspect, and a very important one to be considered in this matter. You have thousands of British ex-service men on the other side of the line, and aside from the fact that a convention held there will stimulate interest among them to a tremendous degree, it will foster international relationships to an extent that cannot be too much emphasized. We thank you for your kind acceptance of our invitation, and can assure you that you will be more than pleased with the result."

J. W. Atkinson, from the California State Command of the Canadian Legion, declared that the convention would outstrip any meeting of its kind ever held since the original formation of the organization. "Members of the Canadian Legion in California will be there in force," he predicted, "and you will find that you will have many more than 5,000 members in that state afterwards."

CHARGED WITH EXTORTION

NEW YORK, Aug. 4 (AP).—Police decided last night David Kahane, fifty-four-year-old restaurateur, arranged his own abduction to get \$500 from his family. They arrested him and an aide on a charge of attempting extortion.

ATTACKED BY A RAT

TORONTO, Aug. 4 (CP).—Hearing screams early today Robert Bloomfield found his eight-month-old son being savagely attacked by a rat. The animal had bitten the child's hand, but his condition is not considered serious.

In addition to the executive officers of the Provincial Command who were elected yesterday, delegates and some of the zone representatives were also chosen. W. H. Hadley was picked as the special representative from the Naval Veterans, while W. O. Rylett was selected as the Tuberculous Veterans' representative.

The following zone representatives were named: T. M. Harroett, Vancouver City; R. D. E. MacMahon, Greater Vancouver; R. Thomkinson, New Westminster; P. Hall, Fraser Valley; J. Gibbs, East Kootenay; G. Boyer, Cowichan and Quilts Islands; W. G. Stone, Victoria and district; E. J. Cook, Northern British Columbia; G. Barclay, Nanaimo and North Vancouver Island; J. Wilson, Prince Rupert, and George Thain, United States.

Annual Encampment Of Alpine Club Ends At Paradise Valley

Two Climbers Disregard Advice and One Forced
to Spend Night in Perilous Position Awaiting
Rescue—Annual Meeting Held

By ARTHUR O. WHEELER

PARADISE VALLEY, July 31 (By Mail).—The activities of the camp were not confined alone to Paradise Valley. An outlying camp was established at the club's Elisabeth Parker hut in the meadows of Lake O'Hara. It was made the halfway camp for the famous two-day round trip of the two previous camps at Paradise Valley, via, via Westchase, Wenchemma and Opabin Passes to the O'Hara Camp, returning over the Abbott Pass, the Death Trap and Milre Pass to Main Camp. Several parties made this magnificent spectacular trip, crossing five mountain passes and traveling five glaciers en route. An extra day or two was spent by each party at the Elisabeth Parker hut and climbs made in the vicinity. Mount Odey was among the climbs made. An attempt on Mount Biddle nearly had a tragic ending.

Contrary to the advice of the guides, two members at the hut, a man and a woman, set out to make the ascent of the mountain. All went well until the final cliffs were reached. Here the woman decided to go on alone. The man, thinking the summit was close at hand, asked her to wait while he went on. It is a difficult mountain where he could neither ascend nor descend.

RESCUED BY GUIDE

After waiting a long time, the woman returned to the hut alone, arriving very early before dark. The man spent the night on the mountain and was rescued from his impasse the next day by the guide, Edward Feuz, with a party. His labor has always claimed and to the right to negotiate rates of pay and such matters. But it seems to me there must be some common ground upon which the railway managements, the railway employees now employed and junior men out of employment could come to some amicable conclusion."

The annual general meeting was held around the great camp fire on Tuesday. The official term of office is biennial, so that there was no election of officers. In the enforced absence of the president, A. A. Morgan, of Winnipeg, the president was read. Reports of the various committees were submitted and adopted. Letters from S. H. Mitchell, of London, the hon. secretary, from Norman Collier, of London, England, an early pioneer of the Canadian Rockies, and Mrs. H. J. Parker, of Winnipeg, were read. Mrs. Parker's letter dealt with the foundation of the club, was its first hon. secretary and attended many of its earlier camps, notably its first at the Yoho Pass Summit in 1908.

LIFE MEMBERSHIP

A resolution was passed, expressing the deepest regret at the absence of Mr. Mitchell through illness. It is the first time since 1908 from which he has been absent. The resolution conferred life membership upon him in recognition of his devoted service to the club since its beginning and of his high ideals of mountain matters.

Major W. J. S. Walker, of Calgary, executive secretary of the Canadian National Parks Association, spoke concerning the parks and entered a strong plea for their support through membership in the association.

VICTORIAN GRADUATES

The following graduated to active membership: C. L. Harrison, of Victoria; D. E. Peddie, of Winnipeg; the Misses Wedgwood, of Ithaca, Kent, England; the Misses Hartley and Agay, of Edmonton; Miss Bancroft, of Regina, and Miss Zilmar, M.D., of Milwaukee, Wis.

The photographic secretary, Mrs. Don Munday, of Vancouver, is again to be congratulated upon a very fine photographic competition. Awards were made by the judges as follows: Challenge Cup, "Mount Waddington," Mrs. Don Munday, of Vancouver.

HANGING ON AGRICULTURE

Governor Stresses Importance of Farming in Guiding Civilization

REGINA, Aug. 4 (CP).—"Upon the fate of agriculture hangs the future of civilization," declared Lord Bessborough, Canada's Governor-General, today in officially closing the World's Grain Conference here.

Lasting results would come from the conference, was the opinion of Lord Bessborough, who added the importance of the gathering could not be measured in national terms. In addition to declaring the conference closed, the Governor-General presented championship awards won during the grain show, this evening, before the grandstand.

CIVILIZATION'S BEGINNING

Discovery that seed sown in the ground would produce an edible crop had been made some 6,000 years ago, stated the Governor-General, from which time dated the beginning of civilization. The surprising thing, he said, was it was only in comparatively recent times any further major advance in agriculture had been achieved. Primitive methods of tilling the soil were followed for centuries.

"Only in our own age," he said, "has agriculture invoked the aid of science."

Transition from the age of purely manual labor to a more mechanical one, in which machinery replaced old-fashioned methods of farming, constituted one of the major victories in the eternal campaign that man seems destined to wage against the stubborn forces of nature.

OF WORLD IMPORTANCE

Issues before the conference called for international effort, he stated, concluding with the opinion that results of the party would be of importance to the world.

Farming was a heart-breaking business, declared the Governor-General in a brief address at night, when he distributed awards won at the show. But the farmers, he added, had always remained faithful to the land. Their loyalty deserved a reward, and he hoped it would be the advent of better times.

He could not help feeling a thrill of pride, he declared, referring to the fine exhibits he had seen, for they were tangible evidence of the "amazing progress that Western Canadian agriculture has made in a few generations."

LIMIT NOT REACHED

"Nor has the limit of development yet been reached," he concluded. "For it has never been characteristic of the West to stand still."

negro, Chicago, sidewalk employee, left shoulder injured.

Quick thinking and keen observation on the part of an attendant at the Grey Nuns' Hospital, near the grounds, provided speedy attention immediately for the injured. Standing on the roof he observed the break and the people plunging through the roof.

The attendant warned the hospital staff and nurses and doctors were rushed to the dressing-room and were ready with bandages and disinfectants as soon as the first injured arrived.

The major portion of the crowd had been leaning against the peaked portion of the roof. It was this part that collapsed, throwing the fifty men, women and children to the ground. The gap in the roof after the break was about sixty feet long.

Injured boys and girls at the Grey Nuns' Hospital occupied one whole ward and the overflow had to be accommodated on a balcony. Similar scenes were witnessed at the General Hospital.

raised about five times since May. All brands have gone up from \$12 to \$20 a case.

About 2,000,000 gallons of pre-war whisky, brandy and gin stored in the Brooklyn warehouse, Weiner said, form the largest stock of old spirits in the country. Withdrawals are being regulated to assure a supply until after repeal. Since whisky must be aged four years before it can be bottled, Mr. Weiner felt that the supply of palatable liquor might be increased by blending the old with the new, if the Government permits the process.

Prices have been increasing, Weiner said, about \$5 a month. Bourbon, which sold for \$32.50 a case in May, is now \$47.50; rye has increased from \$24.50 to \$45 to \$60 a case, and brandy from \$50 to \$55 a case. Withdrawals from the warehouse in May were 11,230 gallons in June, 10,995 gallons and in July 11,995. Weiner said these withdrawals were about 300 per cent greater than before May.

Twelve Hundred-Odd Passengers Locked in Hold in Bengal Hurricane—Sinclair Sees Some Peculiar Funeral Services at Sea

By GORDON SINCLAIR

MADRAS.—Did you ever cross the Bay of Bengal in the teeth of a monsoon, when winds scream in the rigging like lost ghosts and stinging spray drives delicious decks into the holds?

Then don't for it's awful. Today, our mud-brown coolie-carrier, nine hours late, splashed with rain, in the teeth of a monsoon, human ash and dust, hazy and dim, and dimly seen, with the yellow rays of quarantine, calling for port doctors.

For four days and nights we had wallowed through blue-black seas which reached out and grabbed for us, and in the midst of the turmoil and tumult there were births and deaths.

Lugging bundles and babies, pots and pans, goats and ducks, spare shirts and spare parts, a brown army 1,254 strong clanked and clattered on board in a rip-roaring Rangoon monsoon.

They fought and snored over choice allies of deck, invaded first-class quarters and were given the bum's rush. They sang and sobbed, told stories and played cards as we swung down the muddy river and out to sea.

Then came fury. Gales ripped the awnings so these were taken down. Rain, spray and muddy seas washed along uncovered decks and the home-going coolie gale were driven into holds and hatches.

Portholes and windows were closed. The smell of fermenting bodies was pretty ripe and as we took on a pitching roll the scene below became first cousin to an eighty horsepower nightmare.

Gradually a few women drifted aloft with gold coins to buy better accommodation; but there was none. The doctor, black as ebony, ran around making clucking noises. I rolled in and went to bed.

A day came and went and still we rolled. Waves sloshed over the bow and washed down the deck. Babies cried, men swore, women set up mud elephants or six-legged goddesses and chanted tribal rites.

"MANY DIE"
I pillooned myself into a bunk to wait things out. Just after dawn an excited deck boy who had just won \$4,000 on the Derby bet heading in to my room with a pall of hot water and announced: "Much sick man; many die."

I made a heroic effort at shaving but the engines stopped and we drifted helpless in the gale. I awoke to the story where an officer in a big brown oilskin was standing over a white bundle.

Nobody would touch the bundle. It was a dead man, unclean, uncouth. Deck hands and startled passengers clung to guy ropes and watched in horror.

"All right, pick him up," the officer said for the fifth time. Nobody moved. He didn't expect they would. "Right, here goes Joe Greif," he hoisted the white shroud, leaped off on the rail and pushed. It plopped into a high wave and disappeared in froth.

"All clear," the officer shouted. "All clear," somebody repeated. The

engines clanged and we churned up again toward India. I went below to wait the breakfast call. I was hungry. No more than ten minutes passed when I heard somebody yelling: "Get a move on there. Bring a stretcher—and mummy's the word."

"But please, please," somebody whined. "Can't you leave her here, just for today? Leave her, I beg of you."

"Don't be silly, man . . . come on, you chaps. Smart with that stretcher."

I could hear men carrying something down the companionway, but didn't look out. Pretty soon the engines stopped again. Then I heard a shriek and somebody running pell-mell along the deck.

I went upstairs. There was another white bundle on the deck and the same officer standing over it. Back of him were three young Hindus shrieking and screaming and stamping their feet.

"You can't do this," they howled. "It's heartless and cruel . . . I'll report you . . . I'll break every bone in your big fat body."

A MONSOON BURIAL
The officer was thumping through a wet book looking for the burial service. Cold, driving rain beat down on everything. The officer stood over the body while the three shrieking men with tufts of black hair stooping out of their turbans fought to get free.

He found the place in the book while somebody came and stood over him with an umbrella. The wind caught the umbrella from below and turned it inside out. Another was brought but the officer whistled it away. The three Hindus yelped and the wind gave a spooky twist to their voices.

The man in the crown coat mumbled something about committing the body to the deep and then lifted it up to the rail while somebody else read more from the book. Then they dropped the body over and yelled "All clear."

At that second the three men broke loose and ran moaning and shrieking to the edge of the ship, where one of them jumped on the rail. Somebody pulled him back.

"We must join her," they chorused. "Look 'em up!" the officer said as the engines changed again and we bucked another long comber. The three boys were taken away moaning and shouting at the tops of their voices.

"Funny thing, that," the officer said, wiping rain and spray from his face. "Those boys, now, full black Hindus. That woman, she was white as you are. No relation to the boys, but sort of fairy godmother or something. She adopted them when they were little orphans. They took her name—Goodman. It was—and now you see the fuss. It's all put on, all faked. They feel they ought to make a lot of blather about a death. I've had them jump over our ship's bows, do all sorts of silly things. The ones that jump over are the worst trouble of all, because as soon as they hit the sea they shriek and howl for a lifebuoy, a rope or something. It sometimes takes us an hour to get

Historical Society to Meet Today

At the Summer field meeting of the British Columbia Historical Association, to be held this afternoon at 3 o'clock at historic Craigflower School, the Gorge, representatives of the Chamber of Commerce, the Native Sons and the Native Daughters of British Columbia, and the British Columbia Board will be present to speak. The principal address will be the sketch of the history of Craigflower Farm and School, prepared by C. C. Pemberton, and which will be read by Donald Fraser. The general public is cordially invited to attend the meeting and remain for lunch, which will be served at 4 o'clock.

"And you don't believe a word?" the woman snapped at me. "No, ma'am, not a word." Then I defy you to go to Meerut and stop at the house where the mutiny broke out. You'll see the same set of tricks.

"We might have argued but an officer, dripping wet, came in and whispered something to the chief. The chief went away. We were silent. More deaths perhaps and with 1,252 wretched people below, epidemic might sweep the place. I could see it. Soon the chief came back smiling. 'Back to par,' he said. 'Two storm-born babies; we start with 1,254 and dock with 1,254. That's the way it is out here.'"

WAR'S COST IS RECAPITULATED

Imperial Graves Commission Gives Full Figures in Annual Report

OTTAWA, Aug. 4 (CP).—Nineteen years ago today the Government of Great Britain dispatched an ultimatum to Germany, demanding that in the hostilities which had been opened between France and Germany, the latter country give an understanding to observe the neutrality of Belgium. Germany was given until 12 o'clock midnight, August 4, to reply. No answer was given, and when the allotted period had expired, a state of war existed between Great Britain and Germany.

In human life, the war cost the British Empire 1,104,880 men and women. Of these a total of 517,771 were no longer graves, while 587,119 are buried in 15,705 cemeteries scattered throughout 108 countries, islands and protectorates of the world. The figures are furnished in the thirteenth annual report of the Imperial War Graves Commission, just published.

The British Empire enlisted 9,296,691 men and women in the war, the air force and subsidiary combatant and administrative corps. From August, 1914, to November, 1918, Canada's total enlistments in the Canadian expeditionary forces were 683,839, or 25.3 per cent of the male population between the ages of eighteen and forty-five. Of these, 51,748 were killed in action, 6,767 died of disease, and there were 1,006 other deaths. Nearly 10,000 Canadians were wounded.

Those who served outside Canada numbered 42,589 men.

The erstwhile Conservative Member for Salmon Arm, as an alternative, a coalition ministry of Conservatives and Liberals, under T. D. Pattullo, was a possibility which might arise as a result of forthcoming provincial election.

WAR'S COST IS RECAPITULATED

Imperial Graves Commission Gives Full Figures in Annual Report

OTTAWA, Aug. 4 (CP).—Nineteen years ago today the Government of Great Britain dispatched an ultimatum to Germany, demanding that in the hostilities which had been opened between France and Germany, the latter country give an understanding to observe the neutrality of Belgium. Germany was given until 12 o'clock midnight, August 4, to reply. No answer was given, and when the allotted period had expired, a state of war existed between Great Britain and Germany.

In human life, the war cost the British Empire 1,104,880 men and women. Of these a total of 517,771 were no longer graves, while 587,119 are buried in 15,705 cemeteries scattered throughout 108 countries, islands and protectorates of the world. The figures are furnished in the thirteenth annual report of the Imperial War Graves Commission, just published.

The British Empire enlisted 9,296,691 men and women in the war, the air force and subsidiary combatant and administrative corps. From August, 1914, to November, 1918, Canada's total enlistments in the Canadian expeditionary forces were 683,839, or 25.3 per cent of the male population between the ages of eighteen and forty-five. Of these, 51,748 were killed in action, 6,767 died of disease, and there were 1,006 other deaths. Nearly 10,000 Canadians were wounded.

Those who served outside Canada numbered 42,589 men.

STEELE GIVEN WEEK'S REMAND

Prisoner Held for New Scotland Yard Wishes to Consult Counsel

Charles Aubrey Steele, formerly of Vancouver, who was arrested here by Detectives William Stark and Charles Greer, being taken from on board the steamship Emma Alexander, Thursday evening, appeared in the city police court yesterday to answer a charge of holding money under a false pretence.

The accused is held under instructions from New Scotland Yard under the Fugitive Offenders' Act, being wanted for allegedly obtaining fraudulently \$1,600 in the county of Middlesex, England.

When the case of the accused was called yesterday, Mr. Harrison, the prosecutor, suggested a remand for one week. He explained that the accused wished to have the opportunity of consulting counsel and understood that he was retaining W. C. Moreby, K.C., to act for him.

He was held, Mr. Harrison said, at the instance of New Scotland Yard, and it was only a reasonable request to obtain delay.

One week's remand was granted.

TAKING COLORED VIEWS OF CITY

Victoria Will Receive Advertising Through Series of Attractive Photographs

Attracted by the wonderful color effects that are in evidence in local scenery and gardens, especially among the gardens in and about the city, Dr. Charles H. Tozier, of Boston, and Julien W. Rose, former manufacturer of the famed Vose pianos, are being piloted about Victoria by Harold Palmer, assistant secretary of the Chamber of Commerce, for the purpose of getting color photographs to be used by Dr. Tozier in a series of addresses he will deliver.

Among the spots that will be included in the collection of photographs will be the gardens of Mr. and Mrs. R. P. Bulch, the very best equipment being called into play in the taking of the views. The natural colors will be brought out in the photographs produced, thus enhancing the attractiveness and the naturalness of the views.

Dr. Tozier is in demand by various scientific, educational and educational bodies, including the universities, for his lectures, which will be illustrated with these views.

The indirect advertising that will be gained by the city of Victoria will be very great. The views will be displayed before prominent organizations throughout the whole of America.

COUNTRESS IS CHARGED WITH CRUELTY TO SON

NEW YORK, Aug. 4 (AP).—Countess Beatrice de Cavaia was arraigned in children's court yesterday on a charge of cruelty and negligence toward her son, Charles, ten.

Agents of the Society for the Prevention of Cruelty to Children said they found Charles in a dark, unventilated room on the second floor. He was without clothes, the agents said, and his legs were covered with bruises.

The countess will be tried on September 15.

Indian Village Razed by Bombs

SIMLA, India, Aug. 4 (AP).—Village of Kotaki on the northwestern frontier was reported in ruins today, as a result of two bombardments by Royal Air Force pilots, trying to compel Bajauri tribesmen to give up three agitators.

Two squadrons of three planes each participated in the bombings, the third and fourth since British airmen and soldiers moved into the area in an attempt to quell unrest and protect friendly Hainzai tribesmen from a threatened attack by the upper Mohmands, allies of the Bajauris.

COMMITTED ON BIGAMY CHARGE

Baboo Singh Sent to Higher Court for Trial by Police Magistrate

Baboo Singh, also known as J. Baboo, charged with having committed bigamy, was committed for trial following the preliminary hearing of his case in the city police court yesterday morning. The files of the provincial registrar of marriages were produced in court to show that a marriage licence had been taken out on July 15, 1913, for the marriage of Baboo Singh and Maude Alice Crowley. The marriage, according to the documents produced, was performed by Rev. William Stevenson on July 21, 1913.

On January 11, 1932, application had been made for a marriage licence by Los Angeles Jones with J. Baboo, and this was shown to the provincial registrar of marriages on July 22, 1932, by Rev. Dr. A. O. Thomson.

The records were produced by Dr. H. E. Young as the registrar of marriages for the province, while Dr. Thomson appeared as a witness testifying to having performed the ceremony. Baboo was described as a widower at that time.

INFORMANT TESTIFIES

The original Mrs. Baboo, the informant against the East Indian charged with bigamy, appeared as a witness and was subjected to a very searching cross-examination by Stuart Henderson, who appeared as counsel for the accused.

She testified that she had lived with the accused until 1918. She had had unpleasant meetings with him since that on a few occasions, and testified that Baboo had threatened her with dire punishment. She had instituted through her lawyer action for divorce in 1924, and could not tell why this was not carried through. A large part of the time since she separated from him had been spent by her in the United States, where she had formerly lived.

Mr. Henderson took the position there was no proof of bigamy, but the magistrate felt there was a case to meet and in the absence of any contradictory evidence, committed the accused for trial.

WINDOW DISPLAY FEATURE OF TAG

Salvation Army Holding Campaign Today to Raise Funds for Homes

A pleasing display has been arranged in the Government Street windows of Spencer's Limited, through the courtesy of the management, depicting a nursery scene in one of the Salvation Army rescue homes, for the maintenance of which a tag day is being held today.

Models of nurse and babies are being used, and the storks occupy a prominent place, and at 10 o'clock babies and nurse will take their place. The display, but for the storks, attracted large crowds, and proved to be a popular feature, calling attention to the work that is being carried on behind the scenes.

A goodly number of Army friends and Salvationists have volunteered their services to help make the tag day a success, and Adjutant Sharp, who is in charge, asks that others who can assist in any way to let him know.

DEATH REMOVES EARLY RESIDENT

Michael B. Carlin, Well Known Throughout Province, Passes Away

Word was received here yesterday of the death in Kamloops of Michael Burns Carlin, prominent throughout British Columbia, and formerly a resident of this city. He passed away in the Royal Inland Hospital yesterday morning, a news dispatch stated.

Mr. Carlin was some seventy years of age, and came to this province in the boom days prior to 1900. He was born in Quebec of Irish parents. For many years he operated a general store at Rogers Pass, in the Selkirk, but when the five-mile Connaught tunnel was completed, the Canadian Pacific Railway abandoned the Rogers Pass route.

IN LUMBER BUSINESS

Mr. Carlin then entered into a partnership with H. G. Parson and established a general store at Golden. After several years, when the Golden store, Mr. Carlin entered the lumbering business with the late Sir William Mackenzie, president of the Canadian Northern Railway. P. W. Jones, of Victoria, also was associated with Mr. Carlin in this enterprise. Later, the business was sold to the A. D. McKee interests.

Some twenty-five years ago, Mr. Carlin and Mr. Jones came to Victoria to reside, and Mr. Carlin engaged in the contracting business, being associated with the firm that laid the first highway over the Malahat.

ATTENDED CATHEDRAL

A prominent member of the congregation of St. Anne's Cathedral in Victoria, and connected with many societies and organizations in the city, the late Mr. Carlin had many friends here who will regret to learn of his passing. Since his younger daughter, Mrs. Joseph Russell, died about a year ago, he had not been in the best of health.

He was a member of the Victoria near Kamloops. Mr. Carlin leaves one daughter, Mrs. Harold Gott, in Los Angeles; two sons, John, in Chicago, and Michael, at the ranch, and four brothers, among whom are Joseph Carlin, of Seattle, formerly of Victoria; William Carlin, of St. Paul; and Rev. Father George Carlin, of St. Paul.

Other relatives and friends in Eastern Canada and Ireland.

FUNERAL RITES HELD

Funeral services were held on Friday afternoon for Mrs. Annie O. Nicholas. A large number of friends attended the service and the Rev. F. W. McKinnon conducted the service, and interment was made in the family plot at Ross Bay Cemetery, with the following as pallbearers: Gandy, I. Gandy, C. Rutledge, S. Parker, L. Jewell and N. K. Nelson.

THEOSOPHICAL SOCIETY

The Victoria Independent Theosophical Society will hold a public meeting in the Jones Building, 401 Street, on Monday evening at 8 o'clock. An address will be given on "Spiritual Law," to be followed by an open discussion of the subject.

"People who are direct opposites make the best life partners."

"That's why I'm looking for a girl with money."

CULBERTSON ON CONTRACT

By Ely Culbertson

World's Champion Player and Greatest Card Analyst

LESSON IN ADVANCED LOGIC

An end-play at a no trump contract is much more unusual than an end-play at a suit contract, especially because at a suit contract the declarer can play for either a lead up to his tenace or a lead which will enable him to obtain a ruff and discard.

At no trump the ruff-and-discard feature is not present. Furthermore, it is often almost impossible for a declarer to tell whether he should play for the end-play or try to make the hand in some very simple fashion. Generally speaking, the proper procedure can be determined only by close attention to the opponents' discards, and even then the psychology of the opponents has to be taken into consideration—particularly the question of whether they are players who are likely to tell the truth. The importance of this factor is illustrated by the following hand:

♠ Q 6 3 2
♥ Q 4 5
♦ K 3 2
♣ A 10 8 5

♠ 8 7 4
♥ 10 9 3
♦ A 2
♣ Q 9 6 3

♠ A K 3
♥ A K 2
♦ K 3
♣ A 10 8 5

The bidding is of no particular importance, the final contract being six no trump played by South. This is really not as reckless a contract as it seems, as it is really dependent only on a finesse and a break. West's opening lead was the ten of hearts, and declarer stopped to consider the hand immediately. He had four sure tricks, four sure heart tricks, and three sure club tricks, even if the finesse lost. However, he could not afford to lose the club finesse, as then the ace of diamonds would be taken and he would be forced to give up all hope for the hand. If the club finesse was successful, his twelfth trick depended either on a club break or on the correct location of the ace of diamonds.

He won the first trick with the ace of hearts and then laid down three rounds of spades, remaining in his own hand. Realizing that there was no purpose in postponing the club play any longer, he next led a low club and finessed the knave. The king followed, and declarer again paused to consider the situation. It was apparent that the club play was successful, his twelfth trick depended either on a club break or on the correct location of the ace of diamonds.

Resolutions Passed By Auxiliaries at Their Conference

Question of Armaments, Tax on Sugar and Copy-righting Poppies Discussed by Canadian Legion W.A.—Drill Display and Ball Held

The Women's Auxiliaries of the Canadian Legion, B.E.S.L., had another busy day, yesterday, at their convention and matters of importance were discussed. Reports from the following auxiliaries, were read: Maple Ridge, Mission City, T.V.A. (Victoria), Richmond, Surrey, North Vancouver, Qualicum Beach, West Vancouver, Fort Langley, White Rock, T.V.A. (Vancouver), Langley, Prairie, Bellingham, Parkville, Seattle, Britannia No. 7 (Victoria), Colliewood, Nanaimo, D.V.A. (Vancouver), Langford, South Burnaby and Pro Patria (Victoria).

THREE RESOLUTIONS

Three strong resolutions calling for the nationalization of the manufacture of armaments, the removal of the tax on sugar and an increase in the three cents per meal allowed for children under the present relief scale, and for a better grade of poppy, which should be copyrighted, were passed.

The resolution on armaments was sponsored by the Summerland W.A., and read as follows: "Realizing that no progress towards international disarmament can be made while the making of armaments and material of war remains in the hands of profiteering companies, we suggest that a strong resolution calling upon the Canadian Government to demand nationalization of all armament manufacturing be sent to Ottawa by the Provincial Command."

TAX ON SUGAR

The Courtenay W.A. sent the following resolution regarding the tax on sugar: "Whereas the small fruit growers and others depending on the sale of fruits will be seriously affected by the increasing tax on sugar, and, whereas, those who depend largely for the winter's livelihood by storing canned fruits and preserves will find an increasing hardship to do so if this tax is imposed; be it resolved, that a strong plea be made for the removal of the tax on sugar."

ough Cobbet, Tacoma, and Mrs. J. Robinson, Vancouver.

Although membership in a number of the auxiliaries had somewhat decreased during the past year, a large amount of work had been done, and a healthy interest was being taken by groups in all the districts.

A total of \$10,840 had been raised by the British Columbia Command, it was reported by the secretary-treasurer, Mrs. McLennan.

Considerable discussion regarding assistance for the secretary-treasurer took place during the afternoon session, and it was decided that a member of the executive be asked to do whatever was possible to lighten the heavy task which fell upon Mrs. McLennan, who had so ably filled her post.

DRILL DISPLAY

After the meeting adjourned, the members gathered on Broughton Street, in front of the Royal Victoria Theatre, where a large crowd included many of the Canadian Legion men, witnessed a drill display by the Tacoma Women's Auxiliary. Mrs. James Kerr, the captain, led the group of ten white-clad women, smart in their costumes with blue and red caps. A drummer accompanied them, and those taking part in the display were Mrs. George McKelvey, Mrs. K. McLeod, Mrs. P. Kerr, Mrs. E. Van Halster, Mrs. George Palmer, Mrs. Rossiter, Mrs. Anna Quailan, Mrs. Grace Graham, Mrs. E. Roher and Mrs. Knowles.

RELIEF MEASURE

The impossibility of feeding a child on the three cents a meal allowed under the present relief scale was the theme of a resolution sponsored by the convention and requesting that the allowance be increased to four cents.

In the discussion which ensued several members indignantly called that the government had allowed \$4 a week for the feeding of Doukhobor children, while at the same time expecting families on relief to subsist at the rate of three cents a meal. It was also pointed out that meagre rationing was working a great hardship by lowering the resistance of the child to disease and undermining its health.

COMMITTEES NAMED

Committees were appointed as follows: Credentials, Mrs. G. Gerome, Rev. J. H. Barclay, Nanaimo; Mrs. M. D. McLennan, Vancouver; Resolutions, Mrs. W. H. Booth, Victoria; Mrs. A. Winterbottom, Seattle; Mrs. F. J. Jones, Fort Langley; Nominations, Mrs. B. G. Wolfe-Merton, North Vancouver; Mrs. S. Admitt, Langley; Mrs. A. Wilson, Colliewood; Courtesy, Mrs. J. Wickling, West Vancouver.

Speaking as a former district nurse of sixteen years' experience, Mrs. Booth expressed the view that it was the mother who suffered most under the present system, as the invariably went without so that the children should not starve.

Mrs. Barnard reminded the women that "it was a drastic system calling for a drastic measure," but the women's strongest weapon lay in the ballot box, where they should use their influence to express their disapproval of such an iniquitous system.

King's Daughters, Scattered Circle
held a successful "Day at Margate" at Maple Bay, on Tuesday.

In spite of rather cloudy weather, the various attractions provided were well patronized. The Punch and Judy show, conducted by H. L. Helen, proved a great attraction to the children; Mrs. C. F. Davie looked after the hoop-la; Mrs. J. H. Whitcomb, Mrs. E. A. Price and Dickie Day operated the bingos. Tea was served by Mesdames J. L. A. Gibbs, E. B. Fry and F. E. Stock. Mrs. W. P. Jaynes sold the tea tickets and Misses No. Johnson, P. Carr-Hilton, Alice Ross and May Lundie acted as waitresses. Mrs. A. Day, president of the Scattered Circle, had general supervision over the affair.

Chinese Girls May Not Dress as Men
PEIPING, AUG. 4 (AP).—Having forbidden Chinese girls to work in dance halls and cabarets as hired dancing partners under an order issued last month, Yuan Ling, Peiping's new mayor, furthered today his crusade by the ancient capital a model city for women to appear in men's clothes and other unusual dress in public places.

Meanwhile the jobless dance hall girls, appealed to the mayor for a year's grace to enable them to find other employment. Their petition said women's charms cannot cause the downfall of men.

Weddings
JACOBSON-BRINKMAN
At Port Angeles on July 31, Juanita Rose, youngest daughter of Mrs. Mary Brinkman, 3230 Irma Street, and the late Mr. Brinkman, was united in marriage to Mr. Jacobson, only son of Mrs. Hilda Jacobson and the late Mr. Albert Jacobson, of Port Angeles. Rev. C. E. Hanes performed the ceremony, and only immediate relatives of the bride and groom were present. The couple motored to Seattle, and on their return will reside in Port Angeles.

Brentwood
Mrs. E. Anderson, West Road, is spending a holiday in Vancouver.

Mrs. J. Roberts, Marchants Road, is spending a holiday with her parents, Mr. and Mrs. W. Taylor, Cobble Hill.

Mr. and Mrs. M. H. Ellis have taken up residence at Brentwood Bay.

Mrs. I. Ryan held a jolly beach party recently, the occasion being the twelfth birthday of her daughter, Kathleen. Games and swimming were enjoyed. The tea table was centered with a large birthday cake. Green streamers and place cards were used. The guests were: Kathleen Ryan, Heather Pottinger, Douglas McKelvey, Jack Kennard, Helen Feden, Thelma Minto, Isobel Rennie, Joyce Pendray, Nonie Woodward, Leona Francis, Denise Pottinger, Daphne Francis, Ursula Pottinger, Jack Watson, Daryl Woodard, Arthur Milton, James Watt, H. Institutes On Island Are Active

By ELIZABETH BAILEY PRICE

There are thirty Women's Institutes on Vancouver Island, ten in the northern and twenty in the southern part. Some of the northern branches include:

Qualicum reports a most successful rose show last month, Miss Foster carrying off the honors for the best rose in the show and thereby winning a beautiful rose bowl given by Mrs. J. W. Pordham Johnson. Mrs. Hodgson, of Alberni, was the judge. The institute has also distributed seeds to members, with the understanding that they "sow results" at the Fall flower show. As a result of a contest \$3.15 was raised for the Solarium.

DENNIS ISLAND

Dennis Island has closed a series of whist drives, which not only replenished the treasury, but provided some pleasant community social events. From these proceeds a gift was made to the Salvation Army, money was set aside to provide "treats" for a "shut-in," and balls were presented to the junior school. A basket picnic was sponsored on Dominion Day, when children's sports were arranged and free ice cream supplied. Transportation in the form of a truck, was also supplied. A sick-visiting committee has been chosen for the next four months.

OFFICIAL BALL

The official ball in the evening in the Shrine Hall brought to a conclusion the second day of the convention, and a whist drive for those who did not wish to attend the ball was held in the Canadian Legion rooms on Courtney Street.

Owing to a mistake in the programme on Thursday evening, the name of Mrs. S. Kenzie was omitted from the list of artists, and her piano accompaniment for Mr. Ernie Impett, one of the soloists, was much appreciated.

TODAY'S PROGRAMME

At 9:30 this morning the final business of the convention will be brought to the attention of members. The report of the provincial president and secretary will be given. The afternoon will be devoted to sight-seeing and a picnic. At 1:30 p.m.

A dance will be held from 9 until 12 o'clock, at the auspices of the Women's Auxiliaries.

Fashion Takes an Expensive Turn
By ADELAIDE KERR (Associated Staff Writer)

PARIS, Aug. 4.—The richest and costliest fabrics the style world has seen in many years were paraded today at the fashion show, indicating Paris thinks the crisis is over and is determined to revive the mode of elegance in 1934.

Luxurious materials recalling the grandeur of kingly courts, costing \$5 to \$10 a yard, coats trimmed with fur, and four skins and evening clothes decked with feathers and sequins combined to herald the coming expensive mode.

Evening gowns are made with shimmering velvets, satin stamped with gold patterns, crepes woven with gold threads, heavy-ribbed ottomans like grandmother wore and rustling tulle.

DAY-TIME MODES
The day mode is also rich, displaying lamb and wools woven with golden threads, wools having glistening pallides embedded in them. Angora wools, brocheles, lustrous crepes and velvets.

Day frocks, which form the nucleus of women's wardrobes, were fashioned in a variety of styles, in slender silhouettes, curving gently to the figure, and with medium-length skirts, high necks and accented shoulders. They were often trimmed at the neck and on the bodice and sleeves with contrasting fabrics.

The tendency of prominent old-time snaps was shown given today to dollar-size buttons of rhinestones or metal, and silvered or gilded bars or rolls.

ENGAGEMENTS
WILLIAMS-ANDERSON
Mr. and Mrs. J. Anderson, of Parkville, are celebrating the engagement of their eldest daughter, Lillian Victoria, to Mr. Sidney Frederick Williams, eldest son of Mr. C. F. Williams, of Courtenay. The marriage will take place quietly in August.

Mrs. E. Anderson, West Road, is spending a holiday in Vancouver.

Mrs. J. Roberts, Marchants Road, is spending a holiday with her parents, Mr. and Mrs. W. Taylor, Cobble Hill.

Mr. and Mrs. M. H. Ellis have taken up residence at Brentwood Bay.

"Does your lady take this woman for thy lawfully wedded wife?" asked the colored person, glancing at the diminutive, watery-eyed, bow-legged bridegroom, who stood beside 210 pounds of feminine assurance. "Ah takes nothin'" gloomily responded the bridegroom. "Ah's been tooked."

'HOLD YOUR MAN' NOW AT DOMINION

Clark Gable and Jean Harlow Co-Starring Again in Stirring Drama

Jean Harlow sings for the first time on the screen in "Hold Your Man," the new Metro-Goldwyn-Mayer feature, co-starring Clark Gable and Jean Harlow, and opening at the Dominion Theatre today.

With the inmates of a women's reform school for an audience, Jean renders the number at a piano in a manner described as "ultra-torchy." It is a new song hit written especially for the picture by Nacio Herb Brown and Arthur Freed, noted "Broadway Melody" and other popular musical air composers.

The number is heard elsewhere in the picture through orchestra-tions, but is sung by Miss Harlow in the reform school scene to express the ache in her heart for the man whose love put her behind prison bars.

Included in the cast are Stuart Erwin, Dorothy Burgess, Muriel Kirkland, Garry Owen, Barbara Barondess, Paul Hurst and Elizabeth Patterson.

EMPIRE Yet another member of the original stage play's cast is Margaret Sudamore, who, as Catherine Petkoff in "Arms and the Man" at the Empire Theatre, repeats the success she gained in this role on the stage. Born in Portsmouth, her father a dramatic author, she decided on a stage career from the very commencement, her debut being made at the age of fourteen in "Alladin" at Aberdeen, and her ensuing success in straight comedy and dramatic roles amply testified to her choice.

COLUMBIA Bob Kortman, who THEATRE supports Ken Maynard in Universal's "King of the Arena," now at the Columbia Theatre, has been in Western motion pictures for twenty years, very nearly a record. He has

supported every big Western star, including William B. Hart, Harry Carey, Buck Jones, Tom Mix and Hoyt Hiltner.

CAPITOL Thousands of miles, from Indo-China to the peacefully inaccessible lands of forbidden Tibet are covered in "India Speaks," Walter Futler's adventure thriller, which is now showing at the Capitol Theatre.

Rites and customs never before photographed by cameramen, disguised, venturing among fanatics who value human life less than the dust under their feet. Also shown is "Diplomaniacs," featuring Wheeler and Woolsey, in a mad musical-comedy hit.

PLAYHOUSE An unusual predicament ament compels Laurel and Hardy to become members of a bandit gang in their latest, feature-length comedy, "The Devil's Brother," which closes at the Playhouse Theatre today. "The Devil's Brother" is a pictorialization of Auber's famous comic opera, "Fra Diavolo," with Dennis King, the noted singer and stage star, portraying the Marquis of San Marco, who intrudes himself into the good graces of all the lovely ladies while stealing their jewelry.

What Today Means

"LEO"

If August 5 is your birthday, the best hours for you on this date are from 11:30 a.m. to 12:30 p.m., from 3 p.m. to 5:30 p.m. and from 8:45 p.m. to 10 p.m. The danger periods are from 8 a.m. to 10 a.m. and from 3:10 p.m. to 3:45 p.m. Influences operating on this date will tend to keep people on edge

and cause them to be irascible. Youngsters will be inclined to be peevish and generally difficult to handle; if frightened they will probably be difficult to quiet. The person who maintains his poise on this day will be out of the ordinary run. The child born on this August 5 will quite possibly have many petty ways about him, many of which he will carry along through life. He will be inclined to consider only his own feelings and desires in any matter and will not make many

lasting friendships during his earlier years. Will do well at school. If August 5 is your birthday, it is possible that you have a fiery temper that is easily roused; you fly off the handle quickly and often without reason. Fortunately you cool down as quickly and are then willing, if you are in the wrong, to make amends. People like you in spite of this failing, for you are usually a gay companion, witty and even up to some amusing form of devilry. You would seem to be well adapted to a career in business, particularly if you devote your energies to some form of work where you will be called upon to mix freely with people. You can always "get by" with all kinds of people in all walks of life. There is nothing snobbish about you. You must take care not to let yourself become too democratic, nor to run too much with the masses.

Born on August 5, you probably have a mind that must constantly be fed. You will doubtless never stop studying, for you like to digest facts, and you are an avid reader of all sorts of books. You have a facility for languages, and if you have put that quality to work, you are probably master of more than one tongue which you will probably succeed in capitalizing on in some way during your life. In your relations with the opposite sex, you have the faculty for saying nice things and having them believed, even when they are obviously untrue, with you than actual insincerity.

points is called "the score." Strange, isn't it, that literally scoring meant "cutting?" We have the word from the Anglo-Saxon "sceran," to shear, or divide, and the kindred Icelandic "akor," an incision. It was the cut made on the old wooden tally on which, in pre-writing days, accounts of business transactions were kept, that was the original "score." The transition in meaning from the name of the cut to the record which it represented is easily comprehensible.

Next game—Tonight, 6:15 o'clock at Royal Athletic Park, Sons of Canada vs. Tillicums.

Tillicums fighting ball club moved a notch further ahead in their race for pennant honors in the Victoria Senior Amateur Baseball League last night when they defeated Sons of Canada, 6 to 4, after a lively struggle before a fair crowd at Royal Athletic Park. Tillicums gathered in eight hits off Pitcher Lloyd Cann, while Sons only managed to get four safeties from Chucker Ted Colgate.

Gordie Moore, flashy clubmen's first baseman, drove a hard-bounding ball to right field in the fourth that was good for a home run. There was nobody on at the time. Doc Webster made his debut on the key sack for Sons and turned in a good performance.

A seventh-inning slugfest by Tillicums cooked the Sons' goose, clubmen getting four hits in a row and scoring three runs. Sons made a valiant attempt to even matters in their half of the frame, but were retired after two runners had crossed the plate.

man to bat. He laced out a single to left. Hill bunted and beat the throw to first. Meanwhile, Patrick's speedy legs had taken him to third. Ted Colgate hit a nice ball to right centre, sending Hill to third base and putting Patrick in safely at home.

From then until the end of the inning, things happened so fast it was nearly impossible to get them straight. Fleming doubled to left centre, scoring Hill. Stipe bunted safely and stole second. Barnes tried to catch him stealing, but missed. Bacon shot a bad throw home, attempting to get Fleming, but Ken scored. Stipe tried to steal third, but Barnes was watching the play and recovered Bacon's bad ball in time to get it to Hill, who tagged Stipe out. Taylor was put out to end the inning.

SONS GET DANGEROUS
Barnes walked and stole second when the Sons came to bat. Holman tripped to right field, scoring Warner. Doc Webster struck out and Cann was put out in a nice fielding play. Taylor to Moore. Patrick bobbled a fast-moving ball at third, giving Campbell a life and allowing Holman to score. Haines struck out to end the game.

LETHABY'S XI WINS MATCH

Defeat Cowichan by Sixty-Two Runs in All-Day Fixture at Duncan Tourney

Lethaby's XI defeated Cowichan by 62 runs in the Duncan Cricket Week tournament, now in progress Up-Island. The match was played under ideal weather conditions and was an all-day game, commencing at 1 a.m. with lunch and tea intervals.

Lethaby's XI compiled the useful score of 229 for eight wickets declared, all batsmen hitting freely and the bowlers obtaining little assistance from the wicket, which was fast. The wicket keeping of Connel was above reproach, his two stumpings and very few bres allowed receiving favorable comment. Rhodes was Cowichan's most useful bowler.

Cowichan's turn at the wicket showed Green, Fox and Leggett to great advantage. The first named was dismissed differently, plenty of time being allowed for Cowichan to secure a win. Leggett was batting soundly and hitting the loose ones freely, when he was dismissed. Fox played his usual free-hitting game, obtaining six boundaries in his 41.

PHELPS ARRIVES FOR PRO EVENT

Sculling Champion to Start Training for Race Against Bobby Pearce at Toronto

QUEREC, Aug. 4 (CP).—A world's champion who is to race in Toronto in defence of his title and an outstanding amateur who is headed for the same place arrived yesterday aboard the liner Empress of Britain.

They are Ted Phelps, world's champion professional sculler, and a resident of Putney, England, who will defend his title against Canada's Bob Pearce, former winner of the Diamond Sculls and now a professional sculler, and George Von Oppel, of Frankfurt, Germany, who hopes to be matched against outstanding Canadian amateur scullers.

The blond young German is accompanied by his trainer, Eric Phelps, Ted's brother.

Ted Phelps believes his race with the Canadian oarsman—whom he rates highly—will be a close affair. "There is not much he does not know," said the British sculler.

Klein, Davis and Terry Improve Batting Averages—Simmons Loses Ground

Chuck Klein, Spud Davis and Bill Terry, National League's leading hitters, all fattened their averages in yesterday's slugfest between the Giants and the Phillies. Klein hit three out of four, Terry three out of six and Davis one out of three. The gains in the percentages were four, three and one points, respectively. Al Simmons, only American League leader who played, lost three points by going hitless on four trips to the plate and finished only a point ahead of Jimmie Fox.

SET RANGE RECORD

SUSSEX, N.B., Aug. 4 (CP).—A range record, and possibly a world or Dominion record, was established today at the sixtieth annual meeting of the New Brunswick Rifle Association, when 15 competitors made possible, 12 scored 40, and 10 shot 48 out of 65 riflemen competing in the ladies' match, firing 14 shots at 800 yards.

Frank Frisell received a salary cut, it is said, of 50 per cent, and the Cardinal infielder is playing twice as well as he did in 1932. All of which, perhaps, proves that the star second sacker is an amateur at heart.

Canadian Track And Field Meet Scheduled Today

Dominion's Finest Women Athletes to Seek Championships at New Westminster—Hundred-Yard Dash Draws Representative Field

By EVERETT GRAEME
Canadian Press Staff Writer
VANCOUVER, August 4.—Seventy-eight of Canada's feminine track and field stars will sink their spikes in the cinder lanes and jumping pits of Queen's Park Stadium, New Westminster, tomorrow afternoon, in quest of laurels in the Dominion women's track and field championships.

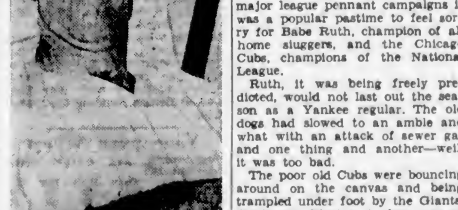

Twenty-one girl stars from Quebec, Ontario, Manitoba, and Alberta will launch their assault against Dominion marks in competition with the pick of British Columbia.

Today the balance of the Edmonton and Calgary squads arrived and a few hours later the Kamloops and North Bend representatives reported to Miss Ann Clark, secretary of the Women's Amateur Athletic Federation. Three entries, Margaret Thompson and Yvonne Dingley, of Nanaimo, and Olive Gordon, of Duncan, arrive tomorrow morning, completing the list.

SPRINT HAS FINE FIELD

In the senior 100-metre, classic event of the day, the cream of Canada's women sprinters will answer the gun. Two heats with every lane filled in the qualifying rounds will bring together crack speedsters from three provinces. Betty White, Hamilton Olympic club flash; Mildred Fissell, ace of Toronto Lakesides, and Beatrice Gillespie, Edmonton, will face three Vancouver sprinters, including Lillian Palmer.

Frank Shields And Parker Win Way to Finals

SOUTHAMPTON, N.Y., Aug. 4 (AP).—Frank Shields, lanky New Yorker, raced through Bryan M. Grant, Jr. of Atlanta, Ga., 6-0, 6-3, 6-2, today, to gain the final round of the Southampton Invitation Tennis Tournament. Shields will meet Frankie Parker, of Milwaukee, in the final. Parker ran over Sydney Wood, defending champion, in straight sets, 6-4, 6-4, 6-4.

Lynn Nelson, young Chicago Cub right-hander, is expected soon to take his place as one of the starting pitchers of the Baby Beas. Nelson has been improving his pitching knowledge by doing daily bull pen duty for the Cubs.

FINANCE - COMMERCE - MARKETS

Security Prices Still on Decline At Wall Street

NEW YORK, Aug. 4 (AP).—The stock market shed a few modest gains on its own account today before the gas bombs sent brokers pouring out with swollen and streaming eyes.

But the market's grief was of limited character compared with the physical discomfort of floor members and employees. Price declines in the short session, so abruptly ended soon after noon by ruthless gas, ranged from fractions to around 2 points.

The ticker had clicked off a volume of only 540,000 shares before the forced evacuation of the floor. Utilities appeared to be the particular selling target. American Telephone, Consolidated Gas, North American, Public Service of New Jersey and Union Western were among the stocks in this category, which lost from fractions to 2 or more points.

Among the industrials, declines of similar scope were recorded by American Tobacco, "B" Union Carbide, United Aircraft, Sears Roebuck, Woolworth, United Fruit, U.S. Gypsum, Goodyear, Johns-Manville, Endicott Johnson and Commercial Solvents.

Rails were unaffected by the glittering report of increased June earnings, while farm implement shares were soft.

Week-end industrial news was of a satisfactory nature.

The bond market, which closed shortly after noon today when tear gas fumes drove brokers from the floor of the stock exchange, displayed an irregular trend in the most indifferent trading of the past several months.

Sales totaled only \$4,303,000, par value. Moderate pressure was reported against some of the secondary rail issues.

Most of the utilities and industrials were without life. Generally, minor gains offset similar losses.

United States Government securities were extremely dull and moderately lower. Foreign obligations were mixed. French Government 7s and 7 1/2s lost a point or more. The more active British 5 1/2s yielded 1.

MINING AND OIL ISSUES DECLINE

Active Leaders Lose Ground Rapidly at Vancouver Stock Exchange

NEW YORK, Aug. 4 (AP).—Mining and oil issues declined sharply today at the Vancouver Stock Exchange. Active leaders lost ground rapidly, with some falling as much as 10 points.

Renowned Gold was the active leader of the day in a flurry of selling, dipping to a low of 1.75, off 25 points. This loss was cut in half at the close, Meridian dipped 6 to 43, Wayside was off 4 1/2 to 55 1/2, Bridge River Consolidated lost 2 to 30, and Pioneer 10 to 11.

Bridge River Exploration and Cariboo Gold were the only precious metals to go contrary to the general trend, both issues firming 1 point or 2.

C. & E. in the oil, lost 10 to 1.55, after touching a low of 1.50 for the day. Delhomme lost 5 to 73, and A. P. Consolidated was down 3 to 27.

That Body of Yours

By James W. Barton, M.D.

INSANITY

A crime has been committed and the law seeks to punish the criminal. Immediately, the defence makes the claim that the prisoner is insane, and therefore cannot be punished by the law, but should be placed in an institution for mental patients. Fair-minded people have no desire to see an insane man or woman punished by hanging or imprisonment, nor, on the other hand do they want to see a prisoner who is not insane escape the just punishment of his crime because a clever lawyer is able to bolster up a defence by various circumstances, illustrations and comparisons.

What is insanity, anyhow? When we think of how judges, lawyers and juries wrestle with the problem of what is and what is not insanity, it is not easy to give a full or complete definition of just what must be found about an individual before he should be called insane.

However, in a general way it may be said that every one of us is born with certain instincts, principal or first instincts they are called, such as love, hate, fear, joy. These are a part of us, ourselves in fact. If then you love, hate, fear anybody or anything, that is your own business; at least that is what one would naturally think. And if this love, hate or fear does no harm to anyone else, no one but yourself knows that you possess it.

If, however, this love, hate or fear so affects you that you want to do things that are not considered right by the community and by the laws of the land, then a fight goes on within you, a "conflict" as it is called, because these primal instincts are forcing you, on the one hand, to do these "wrong" things, and your moral training and the laws of the land are, on the other hand, fighting back these instincts. If we think about some cases we

know who have become mentally unbalanced, we find that they didn't want to mix much with others, wanted to do things differently, weren't much interested in other people, even friends or family; in fact, didn't want to be bothered or "hemmed in" by rules and regulations.

What are our mental specialists trying to do about this type of mental unbalance or imbalance? These physicians recognize that human beings will always be born with these primal instincts—love, hate, fear—so that to prevent insanity, every boy, girl, man and woman must be taught that the good of the community should be always the first thought.
